

# CAR TOP RAIL KIT

Provides a safe working area on elevator car tops for service mechanics. The kit meets ASME A17.1-2000 Code, which requires special railing if there's more than 12" of space between the car and the adjacent hoistway wall.

Our car top rail kit, designed with heavy-duty Unistrut® modular components, includes all hardware and angle brackets needed for easy installation.

## Features and benefits

- 42" (1067 mm) high railing for code compliance
- A safer, more stable working platform
- Available in two sizes and easily adapts to most car configurations
- Expansion kits available for larger cars
